Update: Rightsizing

Presenters: Jon Franco-Senior Chief of Operations; Margaret Calvert-Executive Director, School Planning and Modernization; Richard Smith-Senior Director, Data and Accountability

Staff presented two proposed Rightsizing scenarios to address declining enrollment, improve the sustainability of school programming, and more efficiently use district facilities and resources.

Board members raised questions and concerns about the scale of the proposed changes, their impact on students and neighborhoods, and the information needed to evaluate the scenarios fully. Board members expressed concerns about walkability and bikeability, transportation costs, and commute times. Concerns were raised about the impact on neighborhoods that had already experienced changes through the Southeast Enrolment and Balancing process.

There were clarifying questions about how schools were identified for closure, and how enrollment thresholds were established. There were questions about whether some receiving schools would become too large, how functional capacity was assessed, and how the district balanced enrollment targets with the goal of keeping school communities together. There were questions about how the proposed changes would affect students experiencing poverty, students receiving special education services, multilingual learners, and historically underserved students.

Board members requested to have fiscal impact statements available before they are asked to vote, and to get a clear example of what well resourced schools look like, and to understand the tradeoffs. There was also interest expressed in learning about the transition and implementation planning, including staffing plans. Members asked how students and families who are impacted by closures, program relocations, and boundary and feeder pattern changes would be supported. There was particular interest in Special Education services, Dual Language Immersion pathways, and keeping school communities together as much as possible.

Board members requested that there be engagement with affected school communities and asked questions about how feedback from families, staff, and community members would be taken into consideration.

Consent Agenda: Resolutions 7384 through 7387

- Lisa Jackson Spotted Elk -Urged the Board to reconsider Rightsizing and school closures, honor commitments made through the Southeast Guiding Coalition, and provide transparent data on culturally responsive education and community needs.
