Arleta E.S.

Changes beginning in 2028-29

WHAT'S HAPPENING?

- Arleta would remain open as a neighborhood K-5 school.
- Arleta would welcome the entire neighborhood school area and student body from Marysville.

WHY IS PPS CONSIDERING THIS?

- Arleta chosen for building size: While building conditions at Arleta and Marysville were similar, Marysville was too small to fit both school communities together.

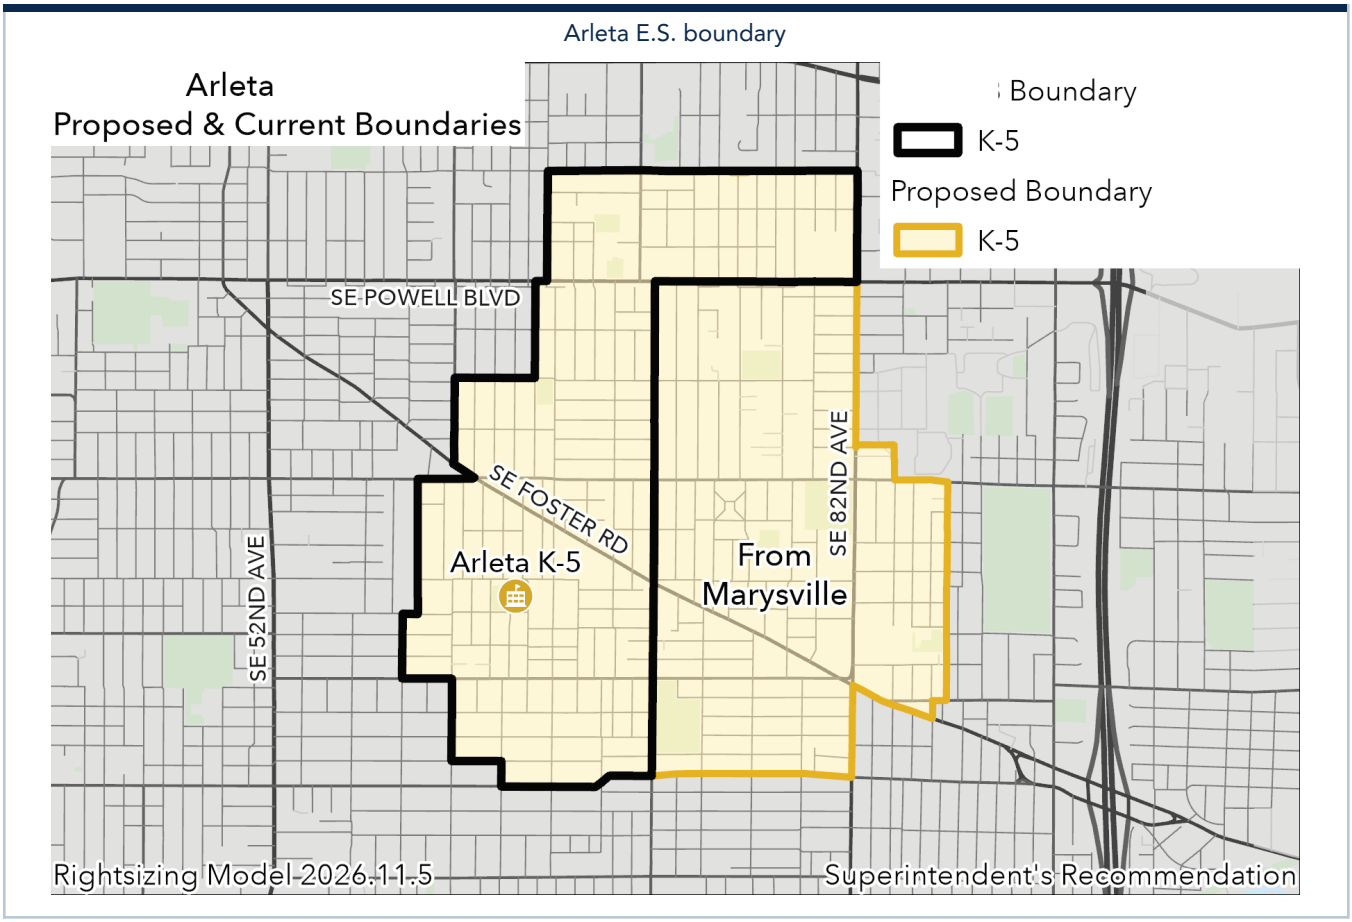

WHAT ELSE WAS CONSIDERED?

- Large school space: Arleta has 28 regular classrooms and can comfortably hold up to 653 students. This proposal keeps the enrollment well above current enrollment but well below the most students the building can hold.
- Major building upgrades: Arleta is getting a brand-new heating and cooling (HVAC) system in Summer 2027 and has a full kitchen setup.

WHAT WOULD STUDENTS GAIN?

- Upgraded learning spaces: Students would gain modern air quality and heating, and large spaces for learning and play.
- Stronger school programs: Combining communities allows the school to offer programs that can continue over time and support student services.

WHERE WOULD THE SCHOOL BOUNDARY BE?

SCHOOL BUILDING CAPACITY & ENROLLMENT

	Functional Capacity	Utilization %	Historical Peak Enrollment	Current Enrollment (2026-2027)
Receiving site	653	32.6%	526 (2019-20)	221

Projected enrollment

School Year	2027-28	2028-29	2029-30	2030-31	2031-32
Status Quo/No Change	213	214	212	216	210
Recommendation	215	415	422	426	416

ENROLLMENT AND TRANSFER

- Neighborhood students: K-4th grade students and incoming K students residing in the Marysville E.S. attendance area will enroll at Arleta E.S.
- PPS transfer students: K-4th grade students attending Marysville E.S. but not residing in the Marysville E.S. attendance area will enroll at Arleta or may transfer to their neighborhood school by

home address. Incoming K students residing in the Lent attendance area with a sibling who had attended Marysville E.S have a guaranteed transfer to join their sibling at Arleta E.S.

WHO WOULD THE SCHOOL SERVE?

Option	Poverty	Special education	Multilingual services	Underserved racial groups	Title I
Status Quo/No Change	24.8%	25.2%	3.9%	17.8%	Not Title 1
Recommendation	38%	24.4%	8%	26%	Title 1

ACADEMIC PROGRAM TRANSITIONS

- Academic Programs: School year 2028-29: Based on current enrollment projections, there will be 3 to 4 classrooms at each grade-level, with blends not required. The Academics team will work with educators to plan curriculum for students who are in blends during the 2027-28 school year and may not be during the 2028-29 school year. Students will receive PE, Arts, and Library/Media instruction each week. Based on enrollment, the school will be supported by a full-time counselor.
- Special Education: Currently, Arleta has one Learning Center and one SES classroom. With rightsizing, Arleta will maintain one 3-5 SES classroom and receive the students from Marysville served in the Inclusive School Community model. This model will be supported at Arleta. In total Arleta will then have four special education teachers and one SES teacher. This will result in four to five classrooms.
- Student and Family Supports: Currently Arleta offers before and after school programming. Our RESJ team is exploring an expansion of childcare capacity at Arleta. Currently, there is SUN programming at Arleta. Continued SUN programming will depend on County, PPS, and City budget process. Currently, there are two partners at Arleta. RESJ partnerships continuing or expanding will be dependent on the PPS budget process. Currently, Morrison Child and Family Services is identified as Arleta's School-Based Mental Health Partner for 2026–27.

SCHOOL BUILDING INFORMATION

Facility Indicator	Classroom Capacity	Special Education: Dedicated spaces & accessibility	Cafeteria / Nutrition Services	Gymnasium
Readiness	Yes	Yes	Yes	Yes

TRANSPORTATION

Transportation	2028-2029
Students living within walkable zone – Elementary (1 mile), Middle (1.5 miles)	66.1%
Eligible bus riders	200
Estimated number of routes (not including special ed routes)	3

Transportation	2028-2029
Hazard transportation routes (included in total routes above)	1

REINVESTMENTS FOR RECEIVING SCHOOLS

Schools that receive additional students through consolidation will be allocated a proportion of the total programmatic savings that result from Rightsizing actions. This allocation will be distributed as discretionary FTE that can be used for instructional coaching, academic intervention, school climate support, social work, or duty support. School principals, with consultation from their school communities and approval from their Senior Directors of Instructional Leadership, will determine how to use these additional investments.

School transition supports: Teams from Central Office have developed a framework for implementing Rightsizing. This includes a menu of transition supports for all impacted school communities. This work is informed by lessons learned by districts across the country that have had successful school consolidations. The implementation framework includes guidance on merging academic programs and school-based teams, (such as Instructional Leadership, Climate, PTAs and others) tools, resources, and timelines. The framework includes timelines for merging school communities and onboarding staff, families and students to their new campuses. It also includes staffing timelines and plans for packing and moving furniture and instructional resources. This comprehensive framework will be shared with the community in December. If the Board of Education votes to proceed with Rightsizing for fall 2027, Central Office teams will begin working with school communities in January to implement transition supports appropriate to each community.
